About Me

About Steven

I have participated in the interface design of mobile phones and websites in different disciplines, which has improved my information analysis ability. What excites me most is translating textual information into visual interfaces through analysis and understanding. Let graphics convey ideas and help users get the information they want quickly.

Webstie Designer

During this time, I developed proficient design software skills and advanced design theory.

UI/UX Designer

Responsible for developing and conceptualizing comprehensive UI/UX design strategies and producing high-quality UI design solutions.

Web Developer

During this time, I developed proficient design software skills and advanced design theory.
